Professional Summary

Junior Java Developer with hands-on experience building 30+ production-grade REST APIs using Spring Boot, JWT, and MySQL. Proven ability to design full-stack applications with React/Angular, containerize with Docker, and deliver clean, maintainable code in Agile teams.

Technical Skills:

- **Programming:** Java 17, JavaScript (ES6+), SQL, TypeScript
- **Frameworks:** Spring Boot, Microservices patterns, Spring Security, Hibernate, JPA, React.js, Bootstrap, Tailwind CSS, Angular, Lombok
- **Tools & Technologies:** Maven, Git, GitHub, Docker, Swagger, Postman, REST APIs, JWT, MySQL, OAuth2
- **Concepts:** Object-Oriented Programming (OOP), MVC Architecture, API Integration, Authentication & Authorization
- **Key Subjects:** Operating Systems, Computer Networks, Database Management Systems, DSA.

Education

Bachelor of Technology/Engineering in Computer Science and Engineering **Expected Graduation: May 2026**

D.R K.N Modi University, Rajasthan CGPA: 8.4/10

EXPERIENCE

SAG InfoTech Pvt. Ltd.

12/2025 – 03/2026

Jr. Software Developer

Jaipur, Rajasthan

- Developed and delivered **8+ production-ready REST APIs** using **Java 17 & Spring Boot**, applying **3-tier architecture** (Controller → Service → Repository) to support live enterprise business workflows.
- Collaborated within a **cross-functional team of 9+ developers** in an Agile environment, contributing to module analysis, feature development, and integration of enterprise-grade business applications.
- Designed and optimized **20+ MySQL queries** for CRUD operations and complex data retrieval, ensuring data integrity across multi-table schemas.

Projects

Smart Healthcare Appointment & Record System | Full Stack Project

Aug 2025 – Oct 2025

- Designed and implemented 30+ REST APIs for a role-based healthcare system (Admin/Doctor/Patient) with JWT + Spring Security authentication, Swagger OpenAPI documentation, and modular 3-tier architecture.
- Deployed dynamic React + Tailwind CSS frontend with role-specific dashboards (Admin/Doctor/Patient) for a responsive and intuitive UI/UX experience.
- **Tools:** Java 17, Spring Boot 3, React 19, MySQL, Maven, Axios, Redux, OAuth2, Swagger, JWT
- [Video Preview](#) | [GitHub Repo](#)

Ajay Movie Production Platform | Full Stack Media Management System

Dec 2025 – Feb 2026

- Integrated pagination, filtering, and efficient database queries to handle large datasets.
- Designed 3-tier architecture (Controller → Service → Repository) for clean separation of concerns.
- Enhanced responsive Angular frontend with search, pagination, filtering, and dynamic movie catalog supporting 100+ movie records. Containerized the application for streamlined deployment using Docker.
- Integrated file upload system supporting posters, screenshots, and multi-resolution downloads (480p, 720p, 1080p).
- **Tools:** Java 17, Spring Boot 3, Angular, TypeScript, MySQL, Maven, Bootstrap, JWT

Certifications

- [React \(Intermediate\)](#) – HackerRank, [REST API Development](#) – HackerRank
- [Software Engineer Intern](#) – HackerRank, [Core & Advanced Java Bootcamp](#) – Infosys Springboard

Academic Achievements & Activities

- Solved **100+ DSA problems** on LeetCode — [View Profile](#)
- Achieved **5 Stars in Java** on HackerRank — [View Profile](#)
- Solved **50+ SQL problems** on LeetCode — [View Profile](#)
